Asynchronous ICT's Positive Impact
on learning outcomes for
Second Language Learners

G SUITE

Docs, Sheets, Slides, Forms and Sites encourage collaboration with multiple contributors in real time or at contributors' preference. This allows for rich development of a topic over time.

Click **HERE** to collaborate with your peers!

PADLET

Padlet allows contributors to add new ideas, replies and questions to a previously generated topic, either in advance or in real time.

Add your own thoughts to our presentation padlet **HERE.**

FLIPGRID

Creating a video is a great way to increase connection and familiarity with peers and instructors. Use flipgrid to individualize and personalize your video anytime, anywhere!

Tell us about your teaching origin story **HERE.**

ANSWER GARDEN

Allows users to brainstorm on a pre-defined topic, in advance or in real time. The size of the word indicates which concepts are most popular, resulting in follow-up discussions!

Let's brainstorm **HERE.**

Presentation by Katina Deichsel, *M.Ed, M.A., OCELT*
