

## AR - Google Expeditions – Solo Expedition

**Google Expeditions** is a free app used to lead guided, virtual field trips to over 1000 locations or explore augmented reality models.

### Downloading the App

- 1) Teachers, install the **app** on their mobile device
- 2) Go to either Google **Play** or the **App Store**

#### Get the app on Android

1. On your device, tap Play Store .
2. Search for Google Expeditions.
3. Tap  Expeditions
4. Tap Install.

#### Get the app on iOS

1. On your device, tap App Store.
2. Tap Search and enter Google Expeditions.
3. Tap  Expeditions
4. Tap Get
5. Tap Install.

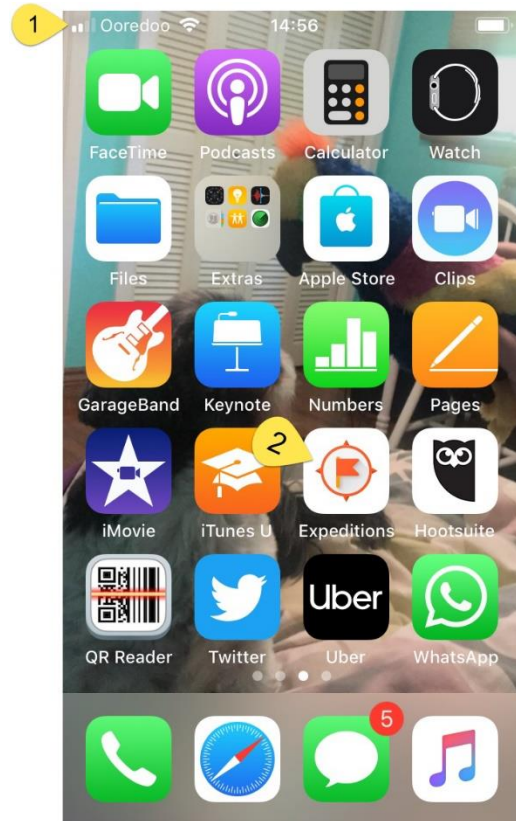

**Note:** Taking Augmented Reality, AR, and Virtual Reality, VR, tours are similar. If you can take one, it is the same procedure to take the other.

AR tours are usually singular 3-dimensional models, whereas VR tours focus on spaces and places.

## Start Exploring this Resource

1) Connect your mobile device to a **Wi-Fi network**.

2) Tap on the Google Expeditions **app**.

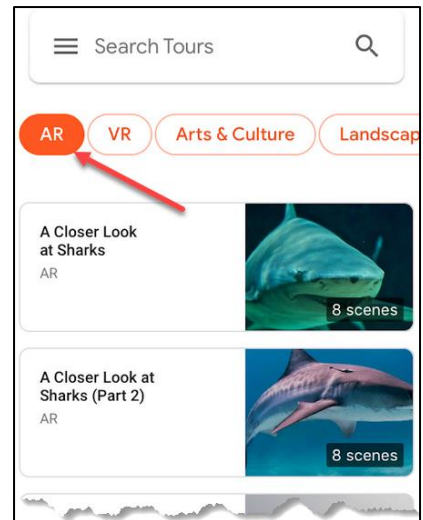

**Note:** The first time the app is launched; users read and accept the conditions. Tap **I ACCEPT**.

3) At the bottom of the screen there are four options, ensure that **Discover** is selected

## AR Model Tours

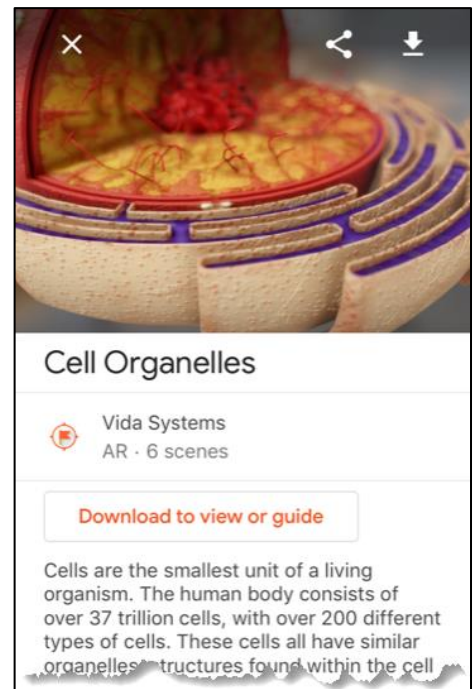

- 1) Across the centre of the screen are rounded rectangular topics.
- 2) Click on the **AR** option.

- 3) A series of Augment Reality models become available in a scrolling column on your device.
- 4) Scroll downwards to reveal additional **AR models**.
- 5) Tap on the option **Cell Organelles**.

- 6) Note the information provided:  
6 scenes within this model.
- 7) Tap on the **Download to view or guide** button.

- 8) Tap on the **View in AR** button.

View in AR

9) The **AR tour** commences, opening at the first scene

10) The first scene is **The Cell**.

A 3D image appears on the screen. At the bottom is a tab with the first scene's title, **The Cell**.

11) Gently drag your finger around to reveal more of the model.

12) Tap on the **Title tab (The cell)** to reveal more information about the scene

13) To move to the next scene swipe the **text tab** to the left.

14) The next scene, **Nucleus**, should appear.

15) Continue through the next five scenes to end the tour.

16) To remove the stored tour from your device's memory, tap on the **Trash** icon.

17) Tap on the **X icon** in the upper left hand corner of the screen.

18) Close the App.
