

Geoguessr

Geoguessr is a free game that promotes developing skills of image recognition and accessing of world knowledge.

The game is played by guessing the location of a **Google Street View** image anywhere in the world chosen at random by GeoGuessr, you could also use the filtering options that constrain the location, to the Canada for example. Points are earned by correctly guessing the locations seen in the Street View images. The accuracy of a guess determines the points the student earns. Recognizing landscape features and synthesizing personal knowledge of landform types, weather, vegetation, climate, and cultural features like building styles or languages present in signage to identify the on-screen location.

How to play a Geoguessr game

1) Got to the website **www.geoguessr.com**.

2) To play, create a free account by clicking on the **Create Account** button.

A green, rounded rectangular button with the text "CREATE ACCOUNT" in white, uppercase, sans-serif font.

3) After you have registered, click on the **Continue** button.

A white rectangular box with a thin black border. At the top, the word "Welcome!" is written in a blue, sans-serif font. Below it, the text "Welcome to GeoGuessr!" is written in a smaller, black, sans-serif font.

A green, rounded rectangular button with the text "CONTINUE" in white, uppercase, sans-serif font.

4) Select the game, **World** by clicking on the **Play** button.

Note: Without a paid subscription, a student can only play one game per day.

You're about to play...

You can play one free game every day.

If you want to play an unlimited number of games you can always go Pro for as low as \$1.99/month.

GO PROPLAY

5) Clicking on the **Play** button.

Note: At this point students can choose between a **Single player** or a **Challenge** game.
In this example, the **Single Player** game is chosen.

CHALLENGE

Time settings

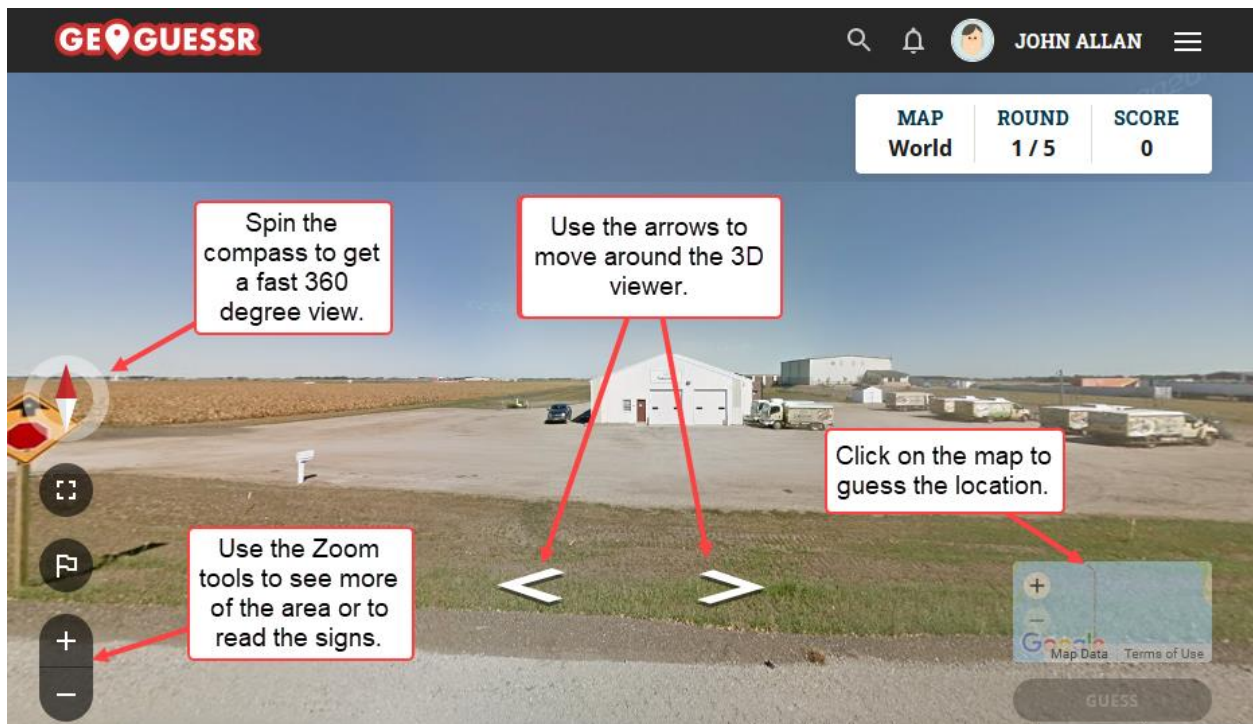

No round time limit

START GAME!

6) Click on the **Single player** icon, and then click on the **Start Game** button.

Note: The **Challenge** game is limited to subscribers only.

7) A **Street View** location appears. Look around the screen for clues.

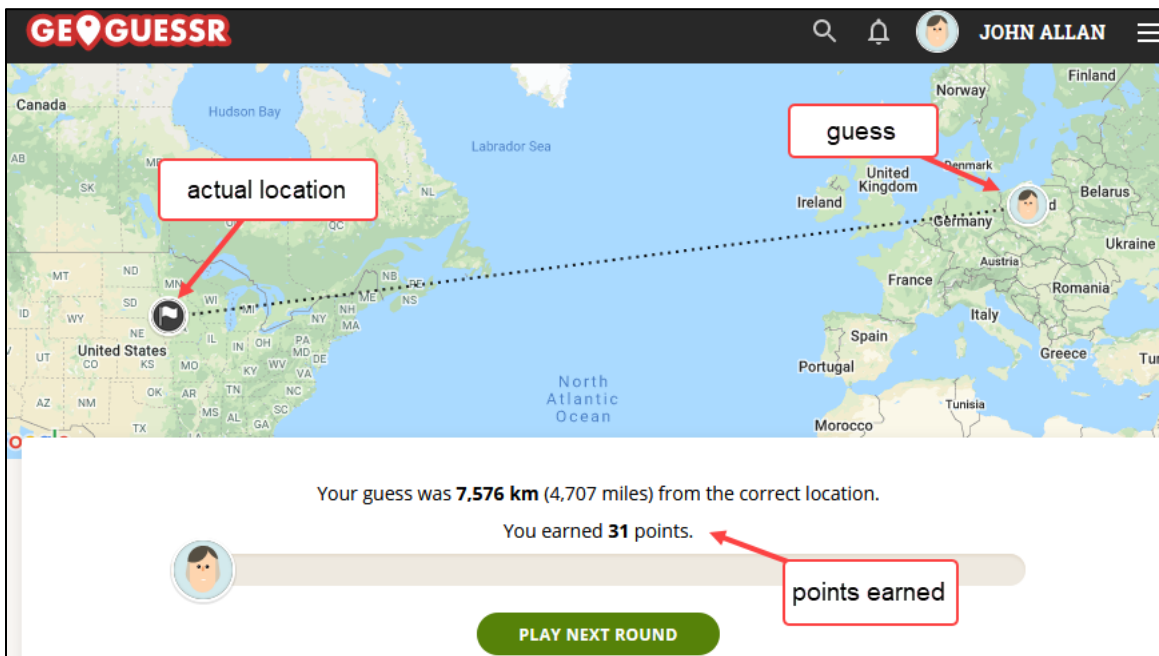

8) Click on the **map** icon and click on the where the place where you think this place is located.

9) After the location guess is pinned on the map, click on the **Guess** button.

10) The results appear. In this case the guess was bad so the learner earned only a few **points**.

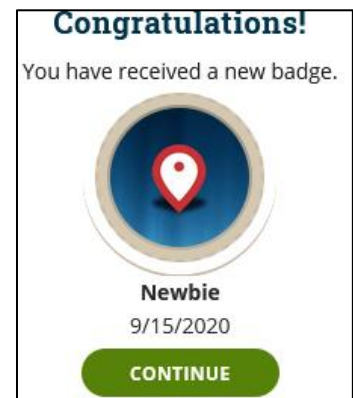

11) The player reads the results from the guess and then clicks on the **Play Next Round** button.

12) A new **Street View** location appears. There are 5 locations in each game.

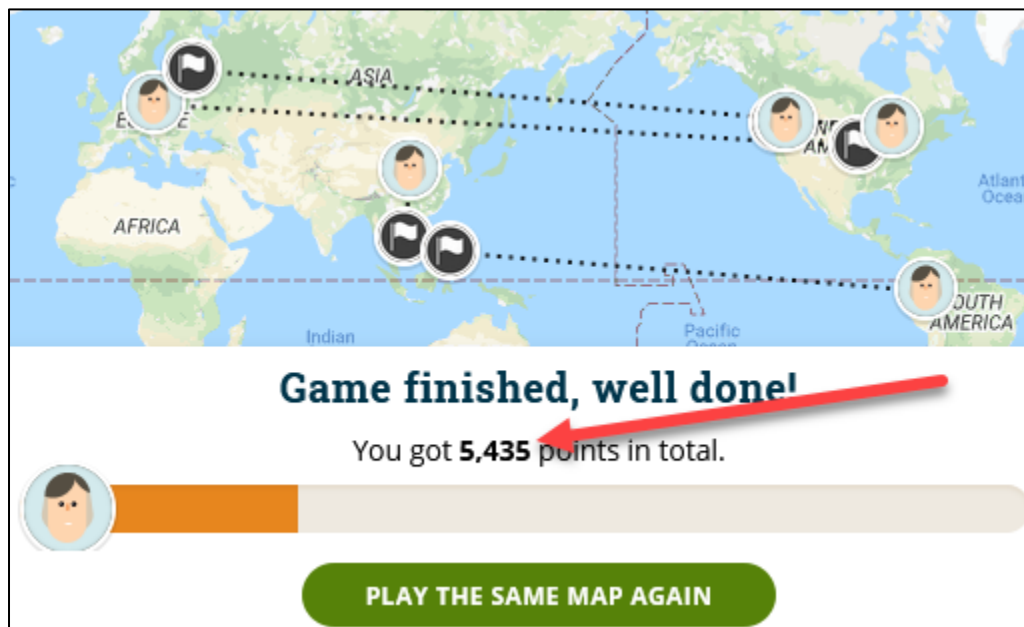

13) After the last location guess, the player clicks on the **View Summary** button.

14) The player is awarded a **digital badge**.

15) Click on the **Continue** button.

16) The **final score** is displayed and an invitation to play again is displayed, but the player will have to wait 24 hours.

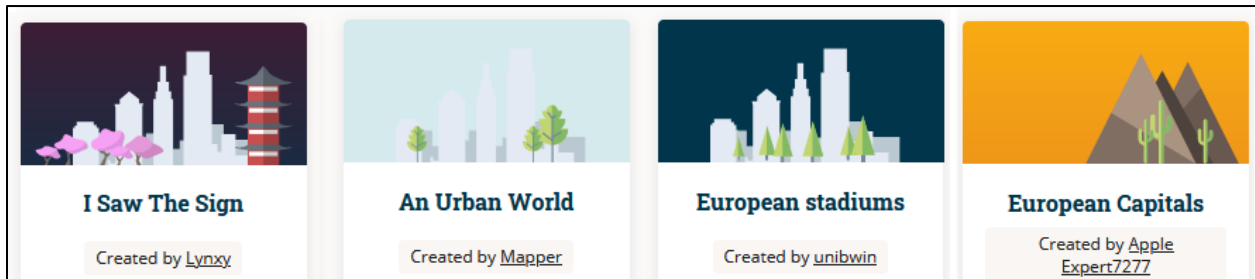

Additional Games

There are games that define a focused geographical area or genre. Most of these are made by individual in the Geoguessr community. Examples of these are:

- **Countries**

- **Various topics**

- **Cities**
